CIA - Precast Concrete Seminar 15 February 2017

Hear our very own Kevin Crompton speak on the topic of Innovations in Sustainable

The use of precast concrete in the construction of the Sydney Opera House put Australia on the world stage as leaders in the precast concrete field in particular with respect to innovation, quality, and safety.

40 years later and we are still at the forefront of the precast concrete industry and continue to lead the globe in these three areas.

This event will be of great interest all members of the concrete construction industry and will highlight why Australia is considered a global leader the field of precast concrete!
