

# National Precast - Education & Training

March 2016

## **COMMERCIAL IN-CONFIDENCE**

### **Opportunity for all members**

**Participate in trial programme which upskills your leaders or potential managers while delivering real business outcomes**

**Feedback needed by Thursday 24th March**

National Precast has been working with LRC Communications ([www.lrcprogram.com.au](http://www.lrcprogram.com.au)) on developing an online educational programme for leaders and potential managers within your businesses, that delivers real outcomes.

The programme sees your nominated participants, collaboratively (in teams) completing projects that have been identified and agreed by you as being needed to improve your business.

The projects are Australian Qualifications Framework (AQF) accredited, tailored for each business and manager approved.

As a by-product of completing projects:

- you improve the skills and value of your leaders/potential managers;
- your business gets a tailored recommendation which addresses an identified need;
- participants receive RPL and can continue to a full qualification (if they want to); and
- the industry builds the skills it needs to maintain a contemporary, globally-savvy workforce.

Anticipated cost is between \$2,500 and \$5,000pp, but you will be assisted with obtaining state government funding (if it is available) to reduce these costs.

[Read more here](#) and please reply with your interest and nominated projects **before close of business on Thursday 24th March**.

Suite 2, 13 Brighton Road, Glenelg SA 5045
