## Precast pre-employment training Member only invitation

The \$8 billion North West Rail Link project has significant precast elements in each of the three stages (Tunnel, Skytrain and Stations).

Transport for NSW (TfNSW) has selected the project to trial the use of long term unemployed (it is expected that all future infrastructure projects in NSW will have the same requirement) and precast manufacture has been identified as one of the industries to assist with their re-employment.

To provide them with training, TAFE has developed a unique 3 week 'Job Ready' course.

National Precast members have an exclusive invitation to observe a Team Building Workshop with the current course participants. A brief overview from the Project Manager, including results from the earlier courses, will also be provided.

**What:** PRECAST - Pre-employment Training Program

**When:** Thursday 23rd April 2015

**Where:** TAFE Western Sydney Institute  
Greenskills Building T12  
Eastern Road  
Quakers Hill NSW

**Time:** 11:30am - 1:00pm

**RSVP:** 15th April 2015 to Peter Webb at [technical@npcaa.com.au](mailto:technical@npcaa.com.au)

Following this visit, NP members will also have the opportunity to provide feedback on a proposed new training program for precast employees at the Impregilo Salini Joint Venture precast facility at Mulgrave. This facility is manufacturing the 1218 off precast viaduct units for the North West Rail Link Skytrain.
