

## Representation and Advocacy

January 2017

### **Standards development Committee CE-029 Manhole Covers And Road Gully Gratings CRM:0266323 Call for Member to represent National Precast Close date for EOI Fri 27th January**

Standards Australia is calling for a NP representative for :

- **Revision of AS 3996-2006 Access covers and grates** ([click for Terms of Reference](#))

Details of the first meeting of the Technical Committee will be advised once the constitution is finalised. Face-to-face meetings are generally held at Standards Australia's offices in Sydney. However, in the interests of equity, where there are committee members from other states, one or more meetings may be held in other locations.

For effective participation in the work of the Technical Committee, it is desirable that Committee Members are able to attend the meetings in person; however, as this is not always possible, audio, video and web-conferencing facilities can be made available. Alternatively, a substitute representative should attend the meeting on behalf of the Nominating Organisation and the Standards Australia Project Manager should be made aware of this change as soon as possible prior to the meeting date.

Note that a balanced group of interested stakeholder organisations has been invited to participate, as shown in the [Committee Constitution here](#).
