Closes 30th May

Melbourne Members' Meeting

Highlights from the meeting include services being packaged for architects, engineers and builders as a result of recent surveys, a discussion on when members' meetings should be held and an update on AS3850 review progress.

Presentations from the Melbourne Meeting

Thanks Sean O'Sullivan, Gary Chalmers, Micah Biggs and Peter Healy for your fantastic presentations and to Hanson (Peter Webb) and Humes (Glenn Degenhart) for sharing in the Precasters' Forum.

If you couldn't make it to Melbourne or would like a recap, the presentations can all be downloaded below:

[Sean O'Sullivan - Moray & Agnew Lawyers](#)

[Gary Chalmers - Erico Products Australia](#)

[Micah Biggs - OneSteel Reinforcing](#)

[Peter Healy - Hollow Core Concrete](#)

ADVANCE NOTICE - Next Members' Dinner & Meeting - Thursday 21st - Saturday 23rd August, Queenstown NZ

At the next Members' Meeting we will be joining PCNZ Members at the Crowne Plaza in Queenstown. The Board meeting will be on Thursday 21st August and we will venture up the Gondola for a joint dinner at Skyline Restaurant Thursday night. A social event will be held on Saturday. More details (including registration form) to come. [Book your accommodation here](#).

Future Members' Meetings

Watch out for a survey to ask your thoughts on the best days of the week to hold Members' Meetings. We will also be asking for your preferences in relation to social events.

Central Coast Septics

Please Welcome new Precaster Member Central Coast Septics (Rivatec Group)

Central Coast Septics are run by the very passionate Tony Kruff and we are very excited to welcome him into the Association. If you would like to find out more about Central Coast Septics you can check out there website [here](#)

Please Welcome new Association Member prefabAUS

prefabAUS are the peak body for Australia's off-site construction industry. They are a fantastic organisation and National Precast is proud to be associated with them. If you would like to find out more about prefabAUS you can check out there website [here](#)
