National Precast is going to Sydney!

Members' Dinner/Meeting/AGM
20th - 21st November

National Precast rep needed for BD-049, the revision of AS-1379 Specification and Supply of Concrete

National Precast is inviting nominees to represent us on a new project established by Standards Australia to amend the section in AS-1379 pertaining to the recommendation for alkali aggregate reactivity in concrete. If you would like to nominate someone to represent us on this committee, please have them complete and return an Expression of Interest before Wednesday 1st October.
