

National Precast membership for precasters

uniting | empowering representing | promoting

Why join National Precast?

New membership options are now on offer by the peak industry body for precast concrete manufacturers.

Since 1990, National Precast has grown to become the industry's voice, comprising members both large and small, in all product categories and across all states. We are dedicated to representing the industry and providing our members with the help and services they need.

As a member you'll:

- Be referred we give you leads that get you work.
- Be promoted we show your work to specifiers.
- Be represented we are your voice with government, standards and codes.
- Be informed we keep you up to date to give you the edge.
- Be connected we link you with our extensive network of industry experts.

Membership provides a substantial Return on Investment

- Buying just 3 Australian Standards could cost you \$1,200.
 - Membership gives you access to 40+ Standards.
- Getting just 1 case study written could cost you at least \$1,000... plus around \$3,000 to get it published.
 - Membership gets you up to 5 both written AND published.
- Engaging an advisor to help you with strategy and write you a report with practical recommendations could cost you
 at least \$4,000.
 - Membership includes this service.
- On your own, it's difficult to influence government authorities, codes and Standards.
 - Membership gives you that ability.
- PLUS winning just ONE referred tender or Cordell project lead can cover your entire membership fee.

Every time I go to a meeting, I feel part of something bigger. And I always seem to come away with something practical that I can do in my business."

Colin Ginger, Precast Concrete Products

We were experiencing an overly prescriptive approach by specifiers. Having the association to go into bat for us helped get it sorted."

Graham Underwood, Rocla

Being sent Cordell reports and tender invitations helps make finding work easy – the work comes to us!"

Craig Zinn, Stresscrete

We don't tend to make enough time for marketing. Having National Precast get our jobs into the big industry magazines really gives everyone here a boost and gets our name out there."

Daniel Nassar, Alpha Precast

We've called National Precast many times to get help... with all sorts of things. Being part of a network connects us with years of experience and loads of knowledge.

After all, we all know that making a wrong decision in our industry can be incredibly costly."

Kim Hovey, MJB Industries

National Precast's Membership options for precasters

Master Precaster

Master Precasters are the industry's best of the best. They are highly regarded by both peers and specifiers. They have a proven track record manufacturing high quality precast in a safe environment. They have a positive impact on the industry and broader community through responsible business practices. These are the people the industry wants to work with.

Master Precaster membership requires you to have been manufacturing precast for 5+ years AND to meet the requirements of a Master Precaster Membership Audit.

P Precaster

Precasters are among the industry's best. They are well regarded with a demonstrated ability to manufacture high quality precast in a safe environment.

Precaster membership requires you to have been manufacturing precast for 2+ years AND to meet the requirements of a Precaster Membership Review.

PP Provisional Precaster

Provisional Precasters are new to the industry. They are likely to be looking for guidance and support as they strive to manufacture high quality precast in a safe environment.

Provisional Precaster membership requires you to have been manufacturing precast for <2 years AND you may or may not meet the requirements of a Precaster Membership Review. This membership is limited to a two year term, after which, to continue your Association involvement, you'll need to apply for Precaster membership.

Affiliate Precaster

Affiliate Precaster membership is a cost-effective membership option if you're looking to try us out, or for a more limited Association involvement.

Annual membership fees (\$) ex GST

Membership fees operate on a financial year (pro-rated if needed) and are based on your company's previous financial year's ex-works (excluding transport/installation) turnover.

All fees are treated STRICTLY CONFIDENTIAL by the CEO and accounts staff, and can be paid in full, or in monthly or quarterly instalments by arrangement.

Fee Type	Ex-works Turnover Previous Financial Year (\$) ex GST	Master Precaster	Precaster	Provisional Precaster	Affiliate Precaster

01 Cordell Precast Project Reports*

Partnering with CoreLogic, National Precast sends all precaster members monthly *Cordell Precast Project Reports*. These contain essential details for 200+ projects that are valued at more than \$2M, from around Australia. They contain the details of the name, location, value, stage and developer for each project.

02 Discounted Cordell Connect Project Detail subscriptions

MP

Should you be interested in full project details, CoreLogic offer only Master Precasters a 50% discount on their *Cordell Connect Project Detail* subscription rate.

This discount can save you up to \$14,000 (one user, national annual subscription, commercial categories). Subscribe to receive information on civil projects in 3 LGAs for as little as \$99 + GST per month!

03 Find-a-Precaster referrals

When you join as a Master Precaster or Precaster member, you nominate your products and services, and this is uploaded into our Find-a-Precaster online service.

This popular service is used by thousands of architects and builders to locate a precaster to supply their next project.

04 Build-a-Tender requests

MP P

Builders regularly contact us for details of members who supply particular products.

Builders simply upload project details and drawings and the information is collated and issued as a tender request to Master Precasters and Precasters. This service is a time and cost-efficient way to connect with builders and provide them with the information they need.

O5 Attend exclusive CPD events for architects, engineers and builders

MP

Only Master Precasters can present at and attend the CPD events for architects, engineers and builders that we run in conjunction with InHouseGroup3.

Be promoted

Precasters are generally busy winning work and manufacturing precast and often don't market themselves or spend time working *on* the business rather than *in* it. We are proud of the work our members do and we love helping them do it better. That's why membership affords precasters a range of marketing and business development services that improve and promote the great work that they do.

MP Master Precaster

P Precaster

PP Provisional Precaster

AP Affiliate Precaster

06 Company profile published in national magazines

MP P

An opportunity for Master Precasters and Precasters to be featured annually in one of the many magazines we write for. Ordinarily this would cost thousands; this is a way of telling your prospective clients what makes you different and what you're doing.

07 Printed case studies

5 3 1

As a Master Precaster, you can have 5 project case studies written for you each year. Precasters receive 3 and Affiliate Precast 1.

We make it easy – you simply provide us project information on a simple template, then we interview you and your clients. A draft is sent to you for approval.

Once finalised, we provide you with 20 printed copies that you can give to existing and potential clients.

Many members use these as a part of their tender submissions.

08 Case studies published in national magazines

5 3

The case studies we write for Master Precasters and Precasters are supplied to our media partners for publication in a range of national and international magazines. Titles such as Roads & Infrastructure Australia, Built Offsite, Build Australia, Construction Engineering Australia, Highway Engineering Australia and Waste + Water Management are just a few examples.

The magazines – and your project write-ups – are read by thousands of builders, architects and engineers. What a great way to promote your business and precast in general!

Be promoted

PP Provisional Precaster
AP Affiliate Precaster

09 Promotion on the National Precast website and social media

The National Precast website is frequented by government authorities, architects and designers, engineers and builders. Regularly updated and containing a wealth of information, resources and practical tools, it includes a free subscription service, allowing professionals to subscribe to regular newsletters.

After Master Precaster and Precaster project case studies are published, they are uploaded to our website and to our social media pages. These serve as a quick reference for professionals by providing design inspiration, product information or examples of your work.

As well as project case studies, all National Precast members are listed in our website member directory. Details about your company are uploaded to the site, as is a link to your own website home page. That increases your Google ranking as well as gives you exposure to your market. For specifiers looking for more details about our Master Precaster and Precaster members, they can click through to your own dedicated page, where they can learn about the services and products on offer.

10 Participation in DesignBUILD exhibition and conferences

DesignBUILD is the annual design and construction exhibition held alternately every May in Sydney and Melbourne. As a supporting partner, we have a stand which allows Master Precasters to promote themselves face-to-face to architects, builders and engineers. The DesignBUILD speaker series is another way for Master Precasters to get involved.

As a Master Precaster, you can also promote your company at national and international conferences through presenting opportunities.

11 Use of the 'Master Precaster member' or 'Precaster member' logo

MP P

Studies show that companies who are a member of their industry body are more innovative. The same goes for being credible. Associations are trusted, and as a National Precast Association member, that trust is passed on to you.

Master Precaster members can use the National Precast 'Master Precaster member' logo because they have proven themselves to be industry leaders and the most highly respected precast manufacturers, Precaster members can use the 'Precaster member logo'.

12 Dedicated Master Precaster marketing program

MP

Having passed a stringent *Master Precaster Membership Audit*, Master Precasters are promoted as industry leaders, trusted by National Precast to deliver a superior precast concrete experience in every way.

Promotion is by way of DesignBUILD exhibitions, industry conferences and training, print and online editorials and advertising features, to make it known that Master Precasters are the most reputable precasters in the industry.

13 Member prices for user-pays services

MP P PP

Master Precasters, Precasters and Provisional Precasters can take advantage of member pricing for a range of user-pays services. These may include publications, event registrations, award entries, professional services and products to improve your business.

16 Mentoring

PP

If you're a newcomer to manufacturing precast, becoming a Provisional Precaster allows you to be mentored in an area of your choice by a non-competing Master Precaster. This can include WHS, quality or another identified area that could deliver improvement to your business.

14 Process Improvement Report

MP P PP

Because Master Precasters are subject to a *Master Precaster Membership Audit* and Precasters and Provisional Precasters a Precaster Membership Review, we will provide you with a detailed *Process Improvement Report* which will identify the areas in your business that could do with some work. We can also provide suggestions as to how this might occur.

15 6-Box Strategic Planning Consultation and Report

MP P PP

Master Precasters, Precasters and Provisional Precasters can participate in a 2 hour strategic planning consultation offered by our Professional Associate member Grant Thornton. Realising strategic ambitions, maximising client value, leadership, finances, risk management and optimising operations are covered and included both in the consultation and the comprehensive report that follows.

Be represented

Advocating on behalf of our members and the wider precast industry is fundamental to our members' future viability and the growth of the industry.

MP Master Precaster

P Precaster

PP Provisional Precaster

AP Affiliate Precaster

17 National Precast Board Nomination

MP

Only Master Precasters can be recognised for their experience and can help drive the future of the organisation and industry by nominating for the National Precast Board.

This energetic and passionate group of individuals is tasked with developing the strategy for the Association's future and overseeing its implementation with the CEO.

The Board is made up of 10 owners or senior managers from our Master Precasters. These people come from around the country, representing both small and large structural and civil precast businesses. Board meetings are held 4 times a year, just before each national members' meeting.

19 Representation to government authorities and contractors

On your own you can only go so far in developing relationships and achieving outcomes with government authorities, contractors and the like. We have considerable experience in and are highly skilled at developing strong relationships with authorities and contractors, and by being a Master Precaster or Precaster, you can achieve much more.

Whether you engage us to assist with a problem or work with us to drive change, there is credibility from being represented by the national industry association. With numbers comes strength - more can be achieved.

18 Input to standards and codes

Master Precasters, Precasters and Affiliate Precasters can offer input to approximately 20 Australian Standards and code committees, on which National Precast is represented. This helps us to represent precasters by improving quality and safety and addressing unreasonable or incorrect requirements. We have delivered some major achievements in this regard.

20 Represent National Precast on Standards and other committees

MP

Master Precasters can nominate their employees to represent National Precast on approximately 20 Australian Standards and code committees, a win-win arrangement for National Precast and the individuals and their companies.

Be informed

Knowledge is power, and with the right information at their fingertips, you can maximise the efficiency of your business. As a member, that information conveniently comes to you or is as simple as picking up the phone.

MP Master Precaster
P Precaster
PP Provisional Precaster

AP Affiliate Precaster

21 40+ precast-specific Australian Standards

Included in your annual Master Precaster, Precaster or Provisional Precaster membership is access to more than 40 precast-specific Australian Standards, available for download and print. Valued at up to \$15,000pa, this one service can pay for a year's membership for a small to medium sized precaster. Refer to our *Australian Standards' Service* flyer for more information and a current list of available Standards.

22 Standards' advice

All members can access advice on any precast-related Australian Standard.

23 Technical. legal, WHS and HR phone advice

At National Precast, we employ highly skilled specialists, all having professional backgrounds and qualifications, so that members benefit from our extensive knowledge and practical experience in our respective fields.

We are here to help our members and are happy to assist with almost anything. Whether you require information about a Standard, a copy of a position description, legal advice, safety support or HR assistance, we will do our best to get you the answers.

We have a 20+ year relationship with legal firm Moray and Agnew. Every year their partners participate in and present at our member-only events. As well as seeing them face-to-face at these events, you can access their complimentary one hour telephone advisory service on a range of workplace and commercial legal matters.

24 Technical, legal, WHS, innovation and events newsletters

Keeping up to date is important, but with the abundant information available these days, it is hard to keep on top of what is relevant to your business. We do that for you.

All members receive regular newsletters on a range of topics. Whether it is about a change to a Standard, an industry incident, new safety-related initiatives, an award-winning project or a contract matter, we make sure you know the latest.

Be informed

MP Master PrecasterP PrecasterPP Provisional PrecasterAP Affiliate Precaster

25 Cordell Construction Monthly reports

Cordell Construction Monthly reports give all members an overview of construction market activity. These serve as a regular update on the number and value of construction projects that are in planning or have commenced construction across residential, community, commercial and major infrastructure developments. For more information about these reports, refer to our CoreLogic's Cordell Services flyer.

26 Customised Forecasting Reports

MP

Do you want to know what the construction market is going to look like in your area in 12 months or 10 years?

As a Master Precaster you will receive ACIF News and can access the Customised Forecasts Dashboard - a valuable forecasting tool that has been developed by the Australian Construction Industry Forum's Construction Forecasting Council. Released biannually, ACIF Forecasts provide a credible 'compass' on upcoming demand for work across all sectors, including major projects, as well as what is happening with construction costs and labour requirements.

27 National magazine subscriptions, copy of the *Precast Concrete Handbook* + more

Through our partnership with publishers like EPC Media, Prime Creative, Boston Publishing, Sage Media and others, you will receive a range of hard-copy and online subscriptions to a number of industry magazines. Not only do these magazines feature work by our Master Precaster and Precaster members, they are a good way to gain a broader construction industry perspective.

Be connected

Networking with other industry leaders is something that our members love becasue not only do they make new friendships, but they are introduced to a wealth of industry knowledge and experience. As a member, there are several ways to get to know other precasters, both from your own state and from around the country. Plus, meet suppliers and find out what they have to offer.

MP Master Precaster

P Precaster

PP Provisional Precaster

AP Affiliate Precaster

28 Member-only meetings and events

These are a favourite among our members, many of whom consistently fly across the country to attend. They are a fantastic way for you to develop relationships with precasters outside your home state. Make friends, share stories, ask for advice and learn at these informal and friendly events.

4 national members' events are held each year, rotated around Sydney, Melbourne, Brisbane, Perth, Hobart and Adelaide. Registration fees are charged to cover costs, however if you are located more that 400km from all of these cities, you will be able to attend 2 dinners and 2 meetings per year free of charge.

Members' events are held over 2 days, and usually consist of a dinner, a factory tour or site visit and a members' meeting.

The members' meeting has both a state and national component and comprises a mix of discussions, guest presenters, project presentations and more.

Dinners are where the informal networking is done. Partners are welcome to attend and many friendships are formed. Several members look forward to incorporating the members' events as part of their annual travel schedule.

On average, approximately 50 people attend the dinners and 40 attend the meetings. These numbers are constantly increasing.

We understand that not all members can travel interstate for all of our national meetings. We also understand that sometimes there are issues pertinent to just one state, which require action. As well, we get that owning or running a precast factory can be somewhat isolating.

To address these issues, we are appointing State Co-ordinators for each state. Part of their role is to organise informal gatherings for local precasters and their suppliers, and liaise as a regular conduit between precasters and the CEO.

Be connected

MP Master Precaster

P Precaster

PP Provisional Precaster

29 Member-only factory and site visits

MP P PP AP

With a focus on empowering our members, we commonly organise visits to members' factories and construction sites as a part of our member-only events.

Our members comment that precast factory visits provide an invaluable insight into other precasters' operations, helping them in their efforts of continuous improvement. These visits add another dimension to the meeting experience and provide first hand learning opportunities. As a member you will have the opportunity to see how others run their businesses and discover new ideas that you can implement in your own factory. You will also be welcomed into other members' factories on a one-on-one basis. Construction site visits provide a different perspective again.

30 International conferences, exhibitions and study tours

MP P PP

Over the years we have developed strong working relationships with our international counterparts and periodically organise group tours to a range of precast conferences and exhibitions. These tours are usually supplemented with visits to local factories.

Attending these events is brilliant for developing close relationships with fellow travellers and finding out about new and different products and systems.

As well, we are often asked to present at international conferences about the Australian precast market, which is a great opportunity for Master Precasters to put their projects on the international stage.

Australian Standards' Service

Included in your annual Precaster membership is access to 35+ precast-specific Australian Standards, available for download and print. Valued at up to \$15,000pa, this one service can pay for a year's membership for a small to medium sized precaster.

Terms and conditions

Membership of National Precast is in accordance with the Constitution of National Precast Concrete Association Australia Limited (email exec@nationalprecast.com.au to request a copy). When claiming membership, members can only use the National Precast logo for their specific membership category. Application is subject to approval by the Board of Directors (refer www.nationalprecast.com.au for criteria). A minimum term of 12 months' membership applies to new membership applications. New memberships may be prorated. Membership is automatically renewed for a further 12 months each year on 1st July. Resignations must be submitted in writing and fees will be payable until such written advice is provided. Each year after membership is renewed all Precaster members are required to submit a Fee Declaration Form that has been signed by an independent accountant/auditor in order to verify their fee type.
