

# National Precast: Student Membership

Invented by the Romans and refined over millennia, precast concrete is what our modern world is built from. Precast concrete is the foundation of transport, infrastructure, construction, utilities, green energy and mining.

Talk to your head of faculty about how your university has partnered with National Precast Concrete Association to provide you with a whole suite of information, resources, and support.

# Kick-start your career in the sustainable construction material that is building the future.

---

## Attention students

National Precast student members receive:

- ① Access a library of textbooks, guides, and reference materials.
- ② 12 month access to a library of publications valued at \$1200.
- ③ Work experience opportunities via the University Attachment Scheme.
- ④ Subscription to National Precast electronic newsletters.
- ⑤ Complimentary subscription to third-party industry publications.
- ⑥ Attend national meetings, local and national social events.
- ⑦ Chance to win a \$1000 scholarship and have your precast related university work published in national magazines.

Talk to your head of faculty for more information about a student membership, or for precast related news visit [nationalprecast.com.au](http://nationalprecast.com.au)
