Reminder - Call for Members to represent National Precast

Dear {Contact_First_Name},

National Precast is seeking suitably qualified and experienced nominations from Master Precaster, Industry Partner or Supplier, and Professional Associate members for the below Standards Australia committees:

AS XXXX Construction and Treatment of Basement Walls (BD-XXX)

This new standard will discuss the design, construction and treatment of basements walls.

AS 3959 Construction of Buildings in Bushfire Prone Areas

This Standard specifies requirements for the construction of buildings in bushfire-prone areas in order to improve their resistance to bushfire attack from burning embers, radiant heat, flame contact and combinations of the three attack forms.

AS 1597.1:2010 Precast reinforced concrete box culverts, Part 1: Small culverts

This Standard sets out minimum requirements for the design, testing, manufacture and installation of precast reinforced concrete rectangular box culverts not exceeding 1200mm span and 1200mm height.

It is expected that approximately 3-4 meetings would be held per year via zoom and phone. Please be advised that Standards Australia does not provide travel and accommodation expenses for the members attending the face to face meetings; however, it does arrange lunch and refreshments during the meeting.

[Expression of interest from](#)

[Nominee responsibilities](#)

Please forward a completed Expression of interest and Nominee responsibilities form to [Shiva](#) before **Tuesday 24th August**.

Note: Suitable member employees are encouraged to express interest.
