What our members say...

"Strengthening our partnership with National Precast was very important to us. We have been a long-time supporter of the Association and the great work it has done to grow the profile and usage of precast concrete. Partnering, supporting and growing with National Precast has enabled us to tailor our solutions to meet the ever increasing and changing needs of the industry, ensuring Reid Construction Systems continues to be a supplier of choice."

Deepti Somasekaran, Reid

"Membership has allowed us to better understand and stay abreast of the issues that affect the precast industry, which has in turn helped us to develop and market products that the industry is looking for."

Bharat Dewani, NexsoftAustralia

"Thanks for organising yet another wonderful conference! The Speed Dating was a brilliant feature. It gives us a chance to meet the members without needing to be too 'salesy'. That way we can just chat casually for the rest of the day as making a business connection is taken care of."

Daniel O'Donoghue, CONQA
